-

PROFESSIONAL SUMMARY

Front-End Developer passionate about building dynamic web applications using React.js. I combine professional agency experience at Softvence, where I deliver client-focused Webflow projects with rigorous self-directed development in modern JavaScript frameworks. My portfolio includes fully functional apps built with React & Firebase, demonstrating my ability to handle complex logic, authentication, and database management alongside pixel-perfect design.

TECHNICAL SKILLS

- **Core:** HTML5, CSS3, JavaScript (ES6+)
 - **Frameworks/Libraries:** React, Bootstrap, TailwindCSS
 - **Backend Familiarity:** Node.js, Express.js, MongoDB
 - **Content Management:** Webflow (CMS, Interactions, Animations)
 - **Tools:** Git, GitHub, VS Code, Firebase, Canva
-

PROJECTS

1. UrbanStyle – Full-Stack E-commerce Platform

- Developed a modern e-commerce application using React.js and Firebase.
- Implemented dynamic product filtering, search, and a persistent shopping cart with Context API.
- Built a comprehensive Admin Dashboard for inventory management and real-time order tracking.
- **Code:** https://github.com/ma-awal/Urban_Style_App
- **Demo:** <https://4-https://urban-style-app.vercel.app>

2. FoodieExpress – Food Delivery Application

- Engineered a real-time food delivery app featuring live order status tracking (Pending to Delivered).
 - Integrated a secure checkout system with Bkash/COD payment logic and automated cart management.
 - Designed a responsive UI with Glassmorphism effects and role-based access for Kitchen Admin vs. Users.
 - **Code:** https://github.com/ma-awal/Foodie_Express_App
 - **Demo:** <https://foodie-express-eight.vercel.app/>
-
